

PPP'S MANIFESTO

**POSITIVE PROGRESSION FOR PEOPLE
(PPP)**

A PARTY SANCTIONED BY THE PEOPLE

***'UNITED WE STAND,
DIVIDED WE STARVE!!!'***

2024 MONTSERRAT GENERAL ELECTIONS

MISSION

The concept of oppression is a pervasive and complex issue that affects individuals and communities worldwide and remains especially true for the British Overseas Territory of Montserrat, BWI. In the context of Montserrat, the struggle for liberation is particularly relevant. Left to fend for themselves, the citizens formed and sanctioned their own political party, Positive Progression for People (PPP). PPP now stands at the forefront preparing to hold the frontline of this struggle, charging forward, and working towards the liberation of the oppressed citizens of Montserrat confidently declared in our manifesto.

Montserrat's ***oppression*** takes many forms, including economic, cultural, and political domination. In the case of Montserrat, the history of colonialism and imperialism continues to impact on the island's social and economic structures, consistently perpetuating systems of oppression, discrimination, and social inequality..

PPP's manifesto emphasizes the need for a more equitable distribution of resources, the protection of human rights, ensuring a guaranteed standard of living, and the empowerment of marginalized communities.

PPP'S OBJECTIVE IS TO RECLAIM OUR COUNTRY AND CONTROL OUR OWN DESTINY.

The PPP party will work towards the dismantling of oppressive systems and structures. This includes challenging the legacy of colonialism and imperialism, as well as addressing the ongoing impact of these systems on the island's social and economic structures.

We will promote the development of alternative systems and structures that prioritize the needs and interests of the vulnerable members of our community. This includes the establishment of community-based organizations and initiatives that provide support and resources to marginalized communities.

The PPP's objectives are motivated by the desire for the positive progression of our people and is centered around our fight against oppression, colonialism, classism, and the promotion of social and economic equity and justice.

WHERE WE'RE AT TODAY

Montserrat's citizens are currently experiencing a 30-year long and counting natural disaster.

Our country still needs certain basic infrastructure in order to **BEGIN** our rebirth to financial independence.

Montserrat's economic future remains uncertain, facing significant challenges in rebuilding our economy and infrastructure. Our reliance on aid and our fragile, almost non-existent infrastructure make us vulnerable to external shocks, and our economic recovery is expected to be a long and difficult process.

We, the citizens of Montserrat, have learned many painful lessons over the past 30 years. Instead of allowing the nails to be hammered into our coffin, we placed the nails between our teeth and stood confidently on our resilience.

That's what got us here today, our tenacity and unwavering faith in Yah and love for our country. We have made mistakes and bad decisions. This we, the people, now acknowledge.

One of those bad decisions included the people mistakenly believing intentional lies spoken by our repeatedly elected government representatives, the individuals we respected and trusted the most with our lives and our future.

Every five years, we move the people on the left side of the table to the right side and place the people on the right side of the table on the left side, cross our fingers, and hoped for something to change. **It never did.** 30 years later and it is now obvious that all our elected governments have only indulged and enjoyed their lavish lifestyle, and their priority is to maintain their now acquired lifestyle every election year. We have never been their priority. We no longer desire their representatio Thus, we sactioned and formed our own party!

WHERE WE'RE GOING

The citizens of Montserrat have tasked the PPP party with submitting a public referendum demanding full control of the laws and legislative construct of our democratic society.

The PPP party will implement economic incentive packages for Montserratians that live on island full time.

The PPP party will initiate Constitutional Reform that introduces accountability to the public of Montserrat and removes the blanket immunity that is currently being implemented.

The PPP party will redistribute resources to the people that are currently being **mismanaged** and **misappropriated**.

PPP'S ECONOMIC STIMULUS PLAN

ADULT MONTSERRATIANS 18 YEARS AND OLDER TO RECEIVE \$2,500ECD PER MONTH STIMULUS PACKAGE!!!

With positive progression for the people of Montserrat in mind, the PPP party will implement stimulus packages for the private citizen of Montserrat.

Our stimulus packages will provide essential resources that will directly address our economic priorities, which include increased individual income, increased consumer spending power, and population growth.

By providing the incentive to Montserratians physically residing in the country on a full-time basis, our citizens displaced in the diaspora will now have an incentive to initiate a mass relocation exodus back to Montserrat.

As a result of the implementation of this stimulus package, PPP will subsequently launch government-funded community living construction projects in an effort to accommodate the increase or anticipated population growth that will result from the effective implementation of these stimulus packages.

In order to ensure that the country is provided with a nourishing environment that will ensure that our economic activity restarts and flourishes, each adult Montserratian living in Montserrat will receive what is essentially a personal direct investment by our government into their individual and unique potential.

PPP anticipates that a deliberate and practical investment into each adult Montserratian resident will provide each citizen with a fair and level playing field to explore, develop, and experience real fulfillment of their individual dreams and personal and professional goals.

At the same time, these cash-based stimulus packages will provide each citizen with the necessary security needed to continue to face an unpredictable future of living with an active volcano in a fragile economy.

The PPP Party recognizes the economic hardships and consumer pressure that the people of Montserrat have been exposed to in the pass 30 years. PPP also acknowledges that Montserrat innovators are in desperate need of consumer and consumption tax reforms and business incentives resulting in practical reduction and revocation of taxes and boosting the private sector.

These incentives will directly benefit individual citizens, instead of just some select businesses. Not to mention, PPP will create and maintain economical and efficient export services for entrepreneurs and small to medium sized enterprise.

WHAT WE LACK..

HOW DO WE PULL OURSELVES UP BY THE BOOTSTRAPS?

We lack representation on a local level and in relation to the Crown. We lack complete control of our laws and legislation and resources.

We are being denied fundamental benefits as UK citizens living in Montserrat.

For the pass 30 years, every government that we have elected as a people has failed to hold the United Kingdom and the Crown to account of the role it has failed to play and is currently playing in the demise of our nation.

Our country does not currently have the ability to have its voice heard before the Crown or the UK Parliament or participate in the decision making processes that directly and indirectly impact the residents and citizens of Montserrat.

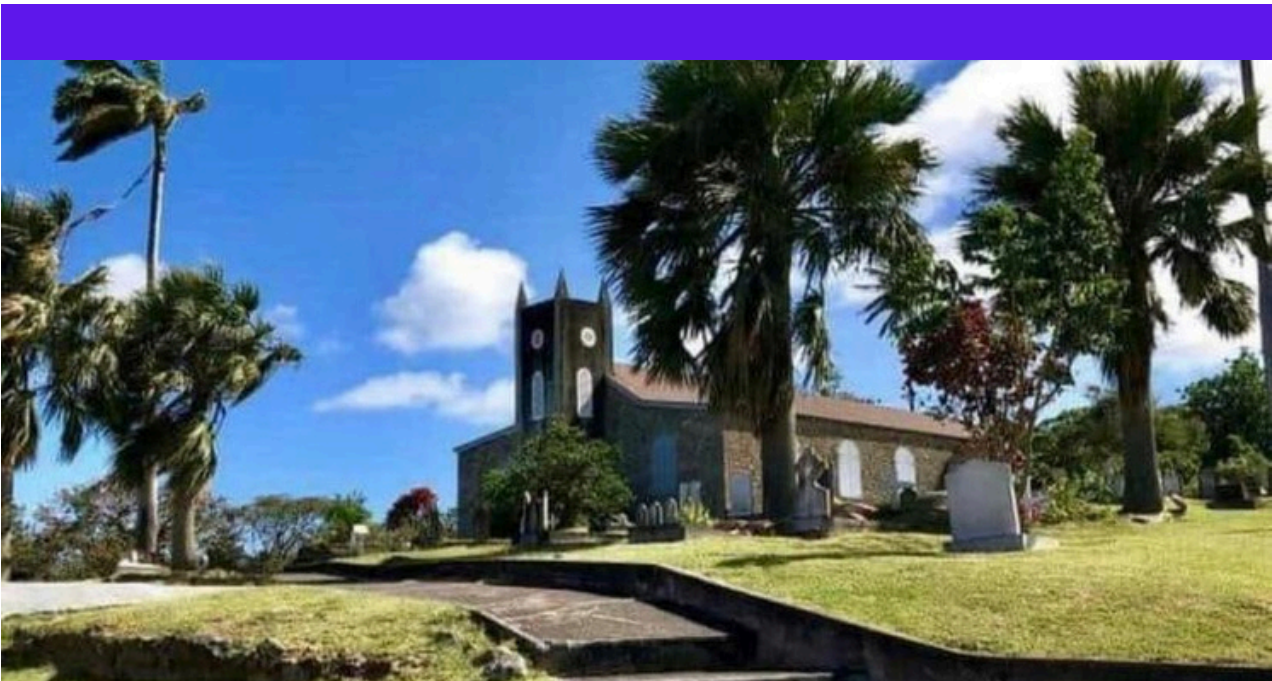

None of our pass elected government representatives made the needs of the people a priority. We lack accountability of public funds and public spending. We lack essential public services that include transportation, education, medical, legal, social, and housing.

In the pass 30 years, there has been a complete lack of effort and a deliberate lack of action on the part of every elected government hat is composed of members of MCAP, PDM, MUA, and NPM.

Every individual that has previously served the public in the capacity of an elected government representative or an elected opposition member completely lacks credibility and have demonstrated clearly that they lack the skills and competency necessary to address the pressing issues that Montserrat continues to face 30 years later.

We, the people, lack the desire to vote for anyone that does not show solidarity to the party formed by the people and sanctioned by the people. We, the people, lack confidence in potential political candidates and demand you show solidarity now. We demand you demonstrate your commitment to the people by publicly claiming solidarity with the People's party, Positive Progression for People (PPP).

We lack any details about what MCAP, PDM, MUA and NPM plans to do to fix Montserrat.

DEMANDING PUBLIC TRANSPARANCY

THE VOTING PUBLIC IS TAKING BACK CONTROL!!!

The voting public of Montserrat rejects any party that has been a member of past elected government and opposition representatives!!!

Public Political Transparency

If you are an individual that is seriously considering running in the upcoming elections and you meet the requirements of no prior elected government position, the voting public of Montserrat expects you to publicly show your solidarity and publicly commit to the Positive Progression for People (PPP) Party.

NO SHOW OF SOLIDARITY, NO VOTE!!!

Montserrat's voting public demands a public demonstration of commitment by potential political candidates. Moving forward, there is no room or tolerance for internal political party politics and sabotage being utilized in the official governance of the people of Montserrat.

Taking Control of Our Future Destiny

We, the People of Montserrat, demand an elected government obligated through an existing and functional democratic process to represent the demands and needs of the Public's sanctioned agenda, represented by the enacting of initiatives demanded by the public of Montserrat.

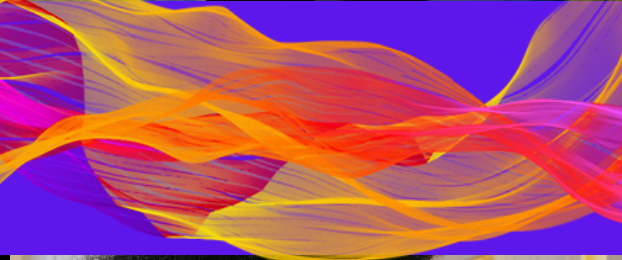

We, the People of Montserrat, have every intention of holding our soon to be elected leader of the PPP Party and her team accountable for pushing the sanctioned mandated by the people of Montserrat forward.

The PPP Party proudly accepts this challenge.

HUGE STEPS FORWARD' *Leader's* MESSAGE

As **We** prepare to celebrate the incredible strides we will be taking as individuals and as a collective, **we** stand at the threshold of a new era, where the boundaries of what's possible are being pushed, and the horizon of what's achievable is expanding.

We've come a long way, but we're not done yet. **We've** faced challenges, overcome obstacles, and persevered through adversity.

We've learned to adapt, to innovate, and to evolve, and through it all, **we've** discovered that the greatest strength lies not in our individual accomplishments, but in our collective progressive movements forward.

We've found our purpose, and it's driving us to take huge steps forward. **We've** discovered that our passions, our values, and our convictions are the fuel that propels us towards a brighter future. We've learned to listen to our inner voice, to trust our instincts, and to stay true to ourselves.

We've faced setbacks, and we've bounced back. We've been knocked down, and we've gotten back up. **We've** learned to dust ourselves off, to re-group, and to re-focus. **We've** discovered that resilience is not the absence of challenges, but the ability to overcome them.

We've come to realize that we're stronger together. **We've** learned to work in harmony, to support one another, and to lift each other up. **We've** discovered that our differences are not weaknesses, but strengths, and that our diversity is the key to our collective success. As we look to the future, we see a world of endless possibility. **We** see a world where technology and innovation are shaping our reality, where creativity and imagination are limitless, and where humanity is coming together to build a better tomorrow.

So let us continue to take huge steps forward, to push the boundaries of what's possible, and to inspire one another to reach new heights. Let us remember that progress is not a destination, but a journey, and that every step **we** take brings us closer to a brighter, more hopeful future.

Together, **We** Can Achieve Anything!

We are the architects of our own destiny. **We** are the masters of our own fate. And together, **we** can achieve anything. So let us seize this moment, let us embrace the power of progress, and let us take the next huge step forward, together. Prepared to lead.

Yours genuinely,

Karen 'Lioness' Allen-Martin

Any individual, whether as a member of MCAP, PDM, MUA, and NPM, who has not been previously elected as a member of elected Government or Opposition, this **Public Service Announcement (PSA)** is intended for you. To these individuals, the people of Montserrat want you to know that they cannot genuinely believe that you desire to truly be an agent for change, if you thought the best place to position yourself would be with the same people and/or parties who that have been deliberately causing us, the people, to suffer for the pass 30 years.

Montserrat is a failed democracy. The true history of Montserrat dictates that **'We', the people**, put an end to the piracy of public funds that have witnessed for the last 30 years.

Every government that has been elected into office in the pass 30 years have consistently failed to deliver and substantially failed the people of Montserrat.

The people of Montserrat now recognize that we have been bamboozled, hoodwinked, and run amuck, for almost half of a century, and we have had enough! For 25 years, we, the citizens of Montserrat with the right to vote, have consistently failed to capitalize on our true voting power and our ability to vote and demand change.

We have learned from our mistakes and are determined to carve out our own destiny and control the direction of our collective future.

In this PSA, the people of Montserrat want you to know that they cannot genuinely believe that you want to truly be an agent for change in the upcoming elections, if you thought the best place to position yourself would be with the same people and/or party that have been deliberately causing the people to suffer for the pass 30 years.

If potential political candidates want the support of the people, you are required to demonstrate your commitment to the people of Montserrat now, not after you are voted in. As far as the people are concerned, they have already sanctioned a party, that's the PPP party. As a result, the people are demanding that potential political candidates demonstrate an action of solidarity to the people.

If you are indeed interested in being an agent for change for the people of Montserrat, garnish their support, and get their vote, you must crossover. You must leave MCAP, PDM, MUA, and NPM to get the people's vote. You must join the party sanctioned by the people.

You must show you commitment to the people before we, the people, vote in the upcoming elections, not after. The people of Montserrat are no longer relying on the words of any politician. The people of Montserrat are setting the terms and condition of these elections and are demanding action. The decision is yours.
